PMP® Exam Prep — The Velociteach System

Special evening edition — 10 weeks of guided study, then you're ready to pass!

WCP

Who is Velociteach?

Velociteach is the Atlanta based company behind the book *The PMP® Exam: How to Pass On Your First Try* by Andy Crowe, PMP®.

With over 100,000 copies in print, this book has become the most trusted and authoritative volume on PMP® Exam Preparation.

Velociteach is also the company behind InSite – the e-learning system which combines advanced level PMP® training with PMP® exam simulation.

With over 14,000 participants trained to date, and a first time pass rate of over 95%, the Velociteach PMP® Exam Prep course leads the industry in quality and results.

WCP is proud to have partnered with Velociteach, as the exclusive Canadian provider of the Velociteach system in Canada.

Special Evening Edition

The special evening edition of this course has the added benefit of guiding you through the entire process — including your application to PMI® — so that at the end of the 10 week program, you are ready to write the exam — no additional study time required!

You're ready to take the next step in your career by becoming a PMP.

If you would like a PMP Exam Prep system that takes you through the entire process — including your application to PMI® — and has you ready to write and pass the exam the day you are finished the course, then the special evening edition of the PMP Exam Prep — the Velociteach System is the course for you.

The special evening edition of the Velociteach PMP Exam Prep course includes five key components:

Application Guidance — Complete and thorough review of your background and training to ensure you are qualified to write the PMP® exam. We then provide guidance on how to fill out the application ensuring that your application is accepted and you can then focus on preparing for the exam.

Instructor Led Course — An intensive 10 session (3 hours/session) instructor led course that covers the entire scope of knowledge required for passing the PMP® exam. Held over 10 weeks, this approach allows you to fully prepare and be ready to write the exam immediately after the course. Taught by industry experts, the course is chock full of advice, study techniques, and best practices for passing the exam. Materials include a comprehensive workbook with course slides and plenty of room for notes to help you study.

On-line Support — The InSite e-learning system, which includes an e-learning component and a PMP® exam testing lab. The e-learning portion supplements the instructor led course and provides additional project management training reinforcement. Participants can go through all of the e-learning modules, or select specific modules to clarify and review specific exam topics. *By completing the entire e-learning module, participants can earn up to 36 PDUs (in addition to the 21 PDUs earned during the 3-day instructor-led course).*

Ongoing Testing – Baseline and benchmark testing lab which allows you to simulate the taking of an actual 4 hour PMP® exam, or create custom tests of any length focused on specific areas of your choice. The results of each test are recorded, so you can see where you need additional focus in order to pass the exam.

Supporting Materials — Andy Crowe's book *The PMP® Exam: How to Pass on Your First Try*, laminated quick reference guide, flash cards and audio files. Use these as you study leading up to your exam, to help ensure that you know the material inside and out.

PMP® Exam Prep — The Velociteach System

Special evening edition — 10 weeks of guided study, then you are ready to write the exam!

PMP® Exam Prep — The Velociteach System is comprehensive and focused on a single goal: Equip students with the knowledge and techniques they need to pass PMI's PMP certification exam. The special evening edition of the course, provides you with a blended learning system consisting of:

- Full review and guidance on filling out the PMP exam application
- 10 sessions of focused in class training
- An online e-learning program (available for 6 months)
- PMP® exam testing lab for establishing your baseline/benchmarking
- Self-study materials including flash cards and audio files
- Guaranteed results

Who should attend

This course is appropriate for individuals from all industries who are serious about passing the exam and becoming a PMP® (may also be used for CAPM® Exam Prep).

Learning objectives

Participants will be prepared for passing the PMP® (or CAPM®) exam including an understanding of:

- Each of the 5 major project management processes including inputs, outputs, tools, techniques, and terminology
- How each process relates to the 10 project management knowledge areas
- The project management framework and how processes flow within it
- The "professional responsibility" subject matter recently added to the exam
- PMI formulas relating to cost, time, quality, and risk, and how to apply the formulas in real scenarios
- How to produce network diagrams, calculate critical path, float, and lag
- Test-taking strategies to help you understand and decode PMI's test questions, and avoid common traps and pitfalls
- Working knowledge of PMI's vocabulary and terms

Our Guarantee

If you complete the PMP Exam Prep system and do not pass the PMP® (or CAPM®) exam after three attempts within a year of completing the course, we will refund 100% of your course tuition.

Additional information

- Participants of this course qualify for 21 Professional Development Units (PDUs) for the in-class portion of this workshop
- Participants also qualify for up to 36 additional PDUs through the e-learning course modules

FAQ's

What is your pass rate? *Over 95% of PM's who have completed the Velociteach PMP® Exam Prep course pass the PMP® exam on their first try.*

Can I really write immediately after the 10 week session? *Yes. Although many people take an extra few days to review, the 10 week special evening edition of this course is designed to ensure that you are 100% ready to write and pass immediately after the course.*

Is any pre-preparation needed? *No. We guide you through the entire process and all materials are included in the course fee!*

Do you help me on the application? *Yes. We do a thorough review of your background and education to ensure you can write the exam and guide you through the process of filling out the application.*

What happens if I am not eligible to write the exam? *We let you know, explain what you have to do to be eligible, then give you the option to either take the course to prepare for the CAPM (Certified Associate in Project Management) exam, or have us return your course fee.*

How much homework is required? *This is an intensive course that requires, on average, 1 hr. per day (5-7 hours per week) throughout the life of the course.*

Is it possible to miss a week? *Yes. Many people do and in some cases it can act as a break. However, the participant is expected to catch up on their own time using the materials provided.*

How does this course differ from others out there? *The Velociteach System avoids using the PMBOK (Project Management Body of Knowledge) and instead focuses on teaching the material as it appears on the exam. Other differences are the use of real life examples to explain concepts; layered approach of the material; baselines and constant feedback; and the constant updating of the course to ensure it stays current.*

What is the difference between the 3-Day version and the Special Evening Edition? *The 3-day version of the course requires that you complete the application to PMI on your own, and have the discipline to complete the self-study portion of the course and exam simulations on your own prior to writing.*

Our special evening edition of the course takes you through the entire process from guidance on the application to getting your exam scheduled. The extra time in-between classes also allows participants to slowly take in the knowledge so that by the end of the 10 week period, they are ready to write the exam.

What happens if I fail? *We suggest you write it again in two weeks and you will pass. We work with you if that happens and of course, we have our famous 100% money back guarantee!*
