

Scrumban: The Best of Scrum and Kanban

WCP

You are familiar with Scrum and you might have heard of Kanban, but have you heard of Scrumban?

Scrumban combines the team-orientation and sprint focus of Scrum with the flow and queuing principles of Kanban to provide teams with a lean-agile approach to deliver value early and regularly.

Scrumban can help you refresh stale Agile practices and better manage the expectations of your product owners and customers.

This 1-day course will provide you with sufficient awareness of Scrumban to help you determine whether it will be the right delivery approach for your next project.

Who should attend

- Project Managers
- Agile Leads (e.g. Scrum Masters)

Materials

- Course workbook containing copies of presentation slides and exercises
- Certificate of completion (framed for participants of in-house workshops)

Learning outcomes

Through the exploration of project scenarios, group exercises, and facilitated discussion, participants completing this workshop will learn how to ...

- Learn how to quickly gain shared understanding in and between delivery teams
- Get some practical tools on better managing customer and Product Owner expectations
- Learn how to evolve existing Scrum or basic agile practices
- Replace existing agile "vanity" metrics with true value-add KPIs
- Learn how Scrumban can address many of the disadvantages of a pure Scrum or pure Kanban approach

Prerequisites

This is an advanced agile workshop. Participants should have hands on experience as a team member or as an agile lead on **at least one** agile project. Participants should also have already received formal training in the fundamentals of both traditional and agile project management. We therefore recommend:

- 3-day [Project Management Essentials: Part 1 – the Fundamentals](#) (or its equivalent)
- 3-day [Agile Project Management Hands On](#) (or its equivalent)

Additional information

- Participants qualify for 7 PDUs/Contact Hours (5 Technical, 1 Leadership, 1 Strategy)
- This course is part of the [uWaterloo Advanced Agile Project Management Certificate](#)
